

DECLARATION OF COMPLIANCE

Reach Declaration

Date:21.01.2025

Dear Customer;

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or important substances on their own, in preparations, or in articles.

The products MAKERSAN provides to your organization meet the REACH criteria for an "Article", as opposed to a "Substance" or "Preparation". Articles are exempt from the REACH requirements if (a) the Article does not contain a substance of very high concern (SVHC) or candidate substance in amount exceeding 0,1% weight by weight, and (b) if substances present in the Article in excess of 1 ton per year per importer are not expected nor intended to be released. Accordingly, we foresee no registration or pre-registration requirement for the products we supply to you.

MAKERSAN is constantly monitoring the substances of very high concern (SVHCs), as defined by REACH, in our products. This will be an on-going process since the complete list of SVCHs will be released in stages. MAKERSAN products (articles) do not contain Substances of Very High Concern (SVCH) above the threshold value declared as per ECHA till 21.01.2025 with 247 SVCH (<http://www.echa.europa.eu/candidate-list-table>).

We also certify that therefore we are compliant with all environmental thresholds which were required by the automotive industry (GADSL)

The response provided by MAKERSAN is accurate to the best of our knowledge for further inquiries please contact us via e-mail, or phone.
